Summer school

“Valorization of agro-industrial residues and side streams for the development of a sustainable bio-economy”

28-29 May 2018
Agricultural University of Athens
Summer school
“Valorization of agro-industrial residues and side streams for the development of a sustainable bio-economy”

Scope
• Technology development for the production of bio-based products
• Bio-economy and biorefinery principles
• Sustainable industrial development

Topics
✓ Biorefinery development
✓ Waste valorisation
✓ White biotechnology
✓ Green chemistry
✓ Anaerobic digestion
✓ Circular economy principles
✓ Life cycle analysis
✓ Process design & costing
✓ Socio-economic analysis
✓ Industrial applications

Invited speakers
• Prof. P. Morone, University of Rome - Unitelma Sapienza, Italy
• Prof. M. T. Moreira Vilar, Universidade de Santiago de Compostela, Spain
• Prof. E. Montoneri, University of Torino, Italy
• Prof. E. Castro, University of Jaén, Spain
• Dr. V. Kumar, Cranfield University, United Kingdom
• Prof. C. Cardona Alzate, National University of Colombia, Colombia
• Assist. Prof. M. Koutinas, Cyprus University of Technology, Cyprus
• Prof. S. Haroutounian, Agricultural University of Athens
• Prof. D. Briassoulis, Agricultural University of Athens
• Assoc. Prof. K. Triantafyllidis, Aristotle University of Thessaloniki, Greece
• X. Tsompanidis, ENVIRONPLAN S.A., Greece
• VIORYL S.A., Greece

Participation is free of charge.

Please send your application until 11th of May to:
sofiamaina@aua.gr, kpapadaki@aua.gr
Summer school
“Valorization of agro-industrial residues and side streams for the development of a sustainable bio-economy”

Organization

Assist. Prof. Apostolis Koutinas
Laboratory of Food Process Engineering
Department of Food Science and Human Nutrition
Agricultural University of Athens, Greece

Practical Information

Venue: Conference Centre Auditorium
Agricultural University of Athens

Address
Conference Centre Auditorium
Agricultural University of Athens
Iera Odos 75, Athina 118 55, Greece
