Germany's largest partnership forum for environmental and energy technologies

"Green Ventures" offers a program of carefully planned, bi-lateral meetings for companies as well as institutions coming from approx. 35 nations. The forum has been taking place annually in Germany since 1998, in China in 2002 and 2004, as well as in Italy in 2008.

The forum is directed at firms and institutions active in the following areas:

1. "Green Ventures - Water, Air & Soil"

Water and sewage treatment, distribution & planning, circulation processes, air and ground clean-up ordinance clearance, remediation and recultivation.

2. "Green Ventures - Energy & Construction"

Energy planning, generation, distribution, saving and re-generative energies, heating, waste heat, co-generation, insulation, environmentally friendly & innovative construction, architecture, project planning, building methods & equipment, facility management, infrastructure (water & energy supply etc.), modernization, restoration, demolition/ recycling.

3. "Green Ventures - Recycling & Regenerative Materials"

Waste collection, transport & recycling, composting (new) materials made of renewable resources or waste and their industrial applications, bio-degradables.

Countries: Brazil, Spain, Turkey, Denmark, Finland, China, Italy, Poland, Tunisia, Belgium, Czech Republic, Hungary, CIS, Great Britain, Germany and other countries
