Invitation to the partnership forum "Green Ventures 2011"

Dear Sir, dear Madam,

The Potsdam Chamber of Commerce and Industry is currently preparing the 14th international partnership event "Green Ventures", which will take place from 15 to 17 June 2011 in Potsdam, in the direct vicinity of Germany's capital Berlin. The partnership forum, one of the biggest events held for this sector in Germany, aims at companies of the energy and environmental sector (for water, air & soil, energy & construction, recycling & renewable materials) from UK, Turkey, Denmark, Finland, Poland, Russia, USA, China, Italy, the Czech Republic, Hungary, Tunisia, Germany and other countries. All together, more than 3,500 firms from 91 states participated in the past events. In 2011, Brazil will be in the focus of the "Green Ventures".

A catalogue with the profiles and co-operation requests of all participants will be published in May, so that you can choose your interlocutors in advance. That's why there will be no risk for the participants as they know the firms they will meet before the journey. We have no restrictions regarding the type of cooperation, whether you discuss subcontracting, distribution, technology transfer opportunities or just exchange experiences. The main target is the creation of direct business contacts. Besides, we will offer a green venture capital event for the first time. Please pay also attention to the fact that the world's leading solar trade fair Intersolar is taking place in Munich and the 19th European Biomass Conference & Exhibition is taking place in Berlin (next to Potsdam) shortly before the „Green Ventures“. You may get further details on both events from their websites which are linked to our homepage www.green-ventures.com in the internet.

There will be **only EURO 50** as fee for foreign participants, although we offer you the following comprehensive service package:

- participation in the partnership event "Green Ventures"
- publication of your company profile in the printed and Internet catalogue
- translation services during "Green Ventures" - if needed, conference language is English
- organization of bilateral/individual company talks
- lunch on 16 and 17 June 2011
- drinks during "Green Ventures"
- opening ceremony on 15 June 2011
- excursion to innovative firms/projects in the Berlin-Brandenburg Region on 17 June 2011

We offer you a large range of efficiently organized direct contacts. You are free to make use of the whole package or just to share the "Green Ventures" talks. We would like to welcome you in Potsdam. Please contact Mr. Stehr for further information (phone: +49-331-2786283) or send us your registration and the filled-in questionnaire (inside the folder) **till 31 March 2011** (fax: +49-331-2786191). You find further information and the online catalogue in the internet under www.green-ventures.com where you can also register. Thank you in anticipation.

Yours sincerely

enc

Torsten Stehr
